

Amendments to the Specification:

On page 56, please replace the paragraph beginning at line 6 with the following amended paragraph:

Additionally, mutations in the h5T4 9mer starting at 81 from NLTEVPTDL (SEQ ID NO: 11) to NLLEVPADL (SEQ ID NO:19) lead to a 4 fold increase in the dissociation half time of the 9mer to HLA A 0201.
